BABY'S BOWELS

are delicate and no drastic purgatives should ever be given. Neither should a mother give her child any concoction containing opiates. If necessary to assist Nature to move the little one's bowels give it one-quarter teaspoonful of

Dr. Caldwell's Syrup Pepsin

Pleasant to the taste—contains nothing which can harm the most delicate organism. Physicians will testify to the truth of this statement. See page 21 of our book of "Proofs." Write for it today.

Mrs. Alice Jackson, of Farmer City, Ill., writes: "My seven months old baby was troubled a great deal with his stomach and bowels. I had tried numerous remedies with no good results, until the baby lost much flesh, and was in poor health. A friend recommended Dr. Caldwell's Syrup Pepsin. I procured a 50c bottle at the drug store and gave the contents to the baby according to directions, after which there was a decided improvement in his condition. Have been giving him Syrup Pepsin for about a month, with very satisfactory results. His stomach and bowels being in good healthy condition and his former weight regained."

Theatrical Notes.

Pretty girls, catchy music, witty dialogue and comic situations are pleasing features in Charles Newman's big extravaganza "Mr. Jolly of Joliet." This play has been placed under the direction of Broadhurst and Currie, the popular managers who have so successfully starred Mason and Mason in "Rudolph and Adolph," which is also from the pen of Charles Newman. The company selected to present "Mr. Jolly of Joliet" is a large one and includes the names of several artists who have been featured in several of the important musical comedies of late seasons. The Premier Quartette, Ada Deaves, Madge Lawrence, Molly Thompson, Maude Allison and many others appear in the company which includes a large chorus. "Mr. Jolly of Joliet" comes to The Kentucky tomorrow night. Seats now on sale.

"Way Down East" was witnessed by a large audience at The Kentucky last night. The cast was not so strong, as a whole, as it was last year, but the play is always pleasing and the company last night was a capable one.

"Audrey," a dramatization of Miss Mary Johnston's book, will be here March 2.

NO OBSTACLES

THE PROTOCOL WILL BE PROMPTLY SIGNED.

Berlin, Feb. 10—The foreign office officials deny that there is any insuperable obstacles to signing the German protocol at Washington, exists. They add that comparatively an unimportant question as to detail has been referred to Berlin, but that the signing will occur in a few days. First, Great Britain's protocol will be signed, and then the protocols of Germany and Italy.

THE HOSPITAL COMMITTEE—

A meeting of the McCracken County Medical society committee has been called for this afternoon at 3 o'clock to discuss plans for the new charity hospital. As previously printed, the doctors are somewhat discouraged since finding that the council cannot vote a bond issue without authority of the people, and are meeting this afternoon to see what can be done.

Flexibility of a "Dorothy Dodd"

EASY SOLES

IT IS SAID that the woman who goes to church with squeaky shoes goes to the right place, for her SOLE needs attention.

There is really a good deal about the sole of a woman's shoe that needs attention. You realize it if you stop to think how much you relieve the discomfort and "hardness" of shoes by making their soles flexible.

So far as I know (and I have taken pains to examine many different makes of shoes) the "Dorothy Dodd" is the one shoe for women that is really constructed with a flexible sole.

You can tell the difference as soon as a few steps have been taken. It means comfort. And a flexible sole, as rule, will out last any rigid sole—don't overlook that!
